About This Content

Menace in Ravenreach

When the group of adventurers arrived in the outpost town of Ravenreach they headed directly to the local tavern. As was usual, it took under the hour until fists started flying, glassware shattering and furniture flying. The fighting ended, just as the last of the locals melted away. Their incarceration made the wanderers the ideal candidates for an unusual errand. The Master Minder, the court wizard, requires the capture of a local troll - alive - for his studies. Without hesitation they accepted the task and into the wilds they went. Not exactly start to a Saga of old, but the days are young as they slip into the dark woods.
